## GETEC ITALIA

We have the desire and the energy for more

We are an ESCo specialized in providing cutting-edge solutions for energy efficiency and sustainability in Italy.

We design, build and manage energy assets in the Public, Industrial, Private Healthcare and Private Real Estate sectors.

"MANAGE HEAT AND POWER WHILE RESPECTING THE ENVIRONMENT, REDUCING CONSUMPTION AND OFFERING HIGHER STANDARDS OF QUALITY". THESE ARE THE VALUES WE BELIEVE IN.

We develop energy solutions with financial benefits for our clients and environmentally friendly. We firmly believe we can give real contribution to greater sustainability.

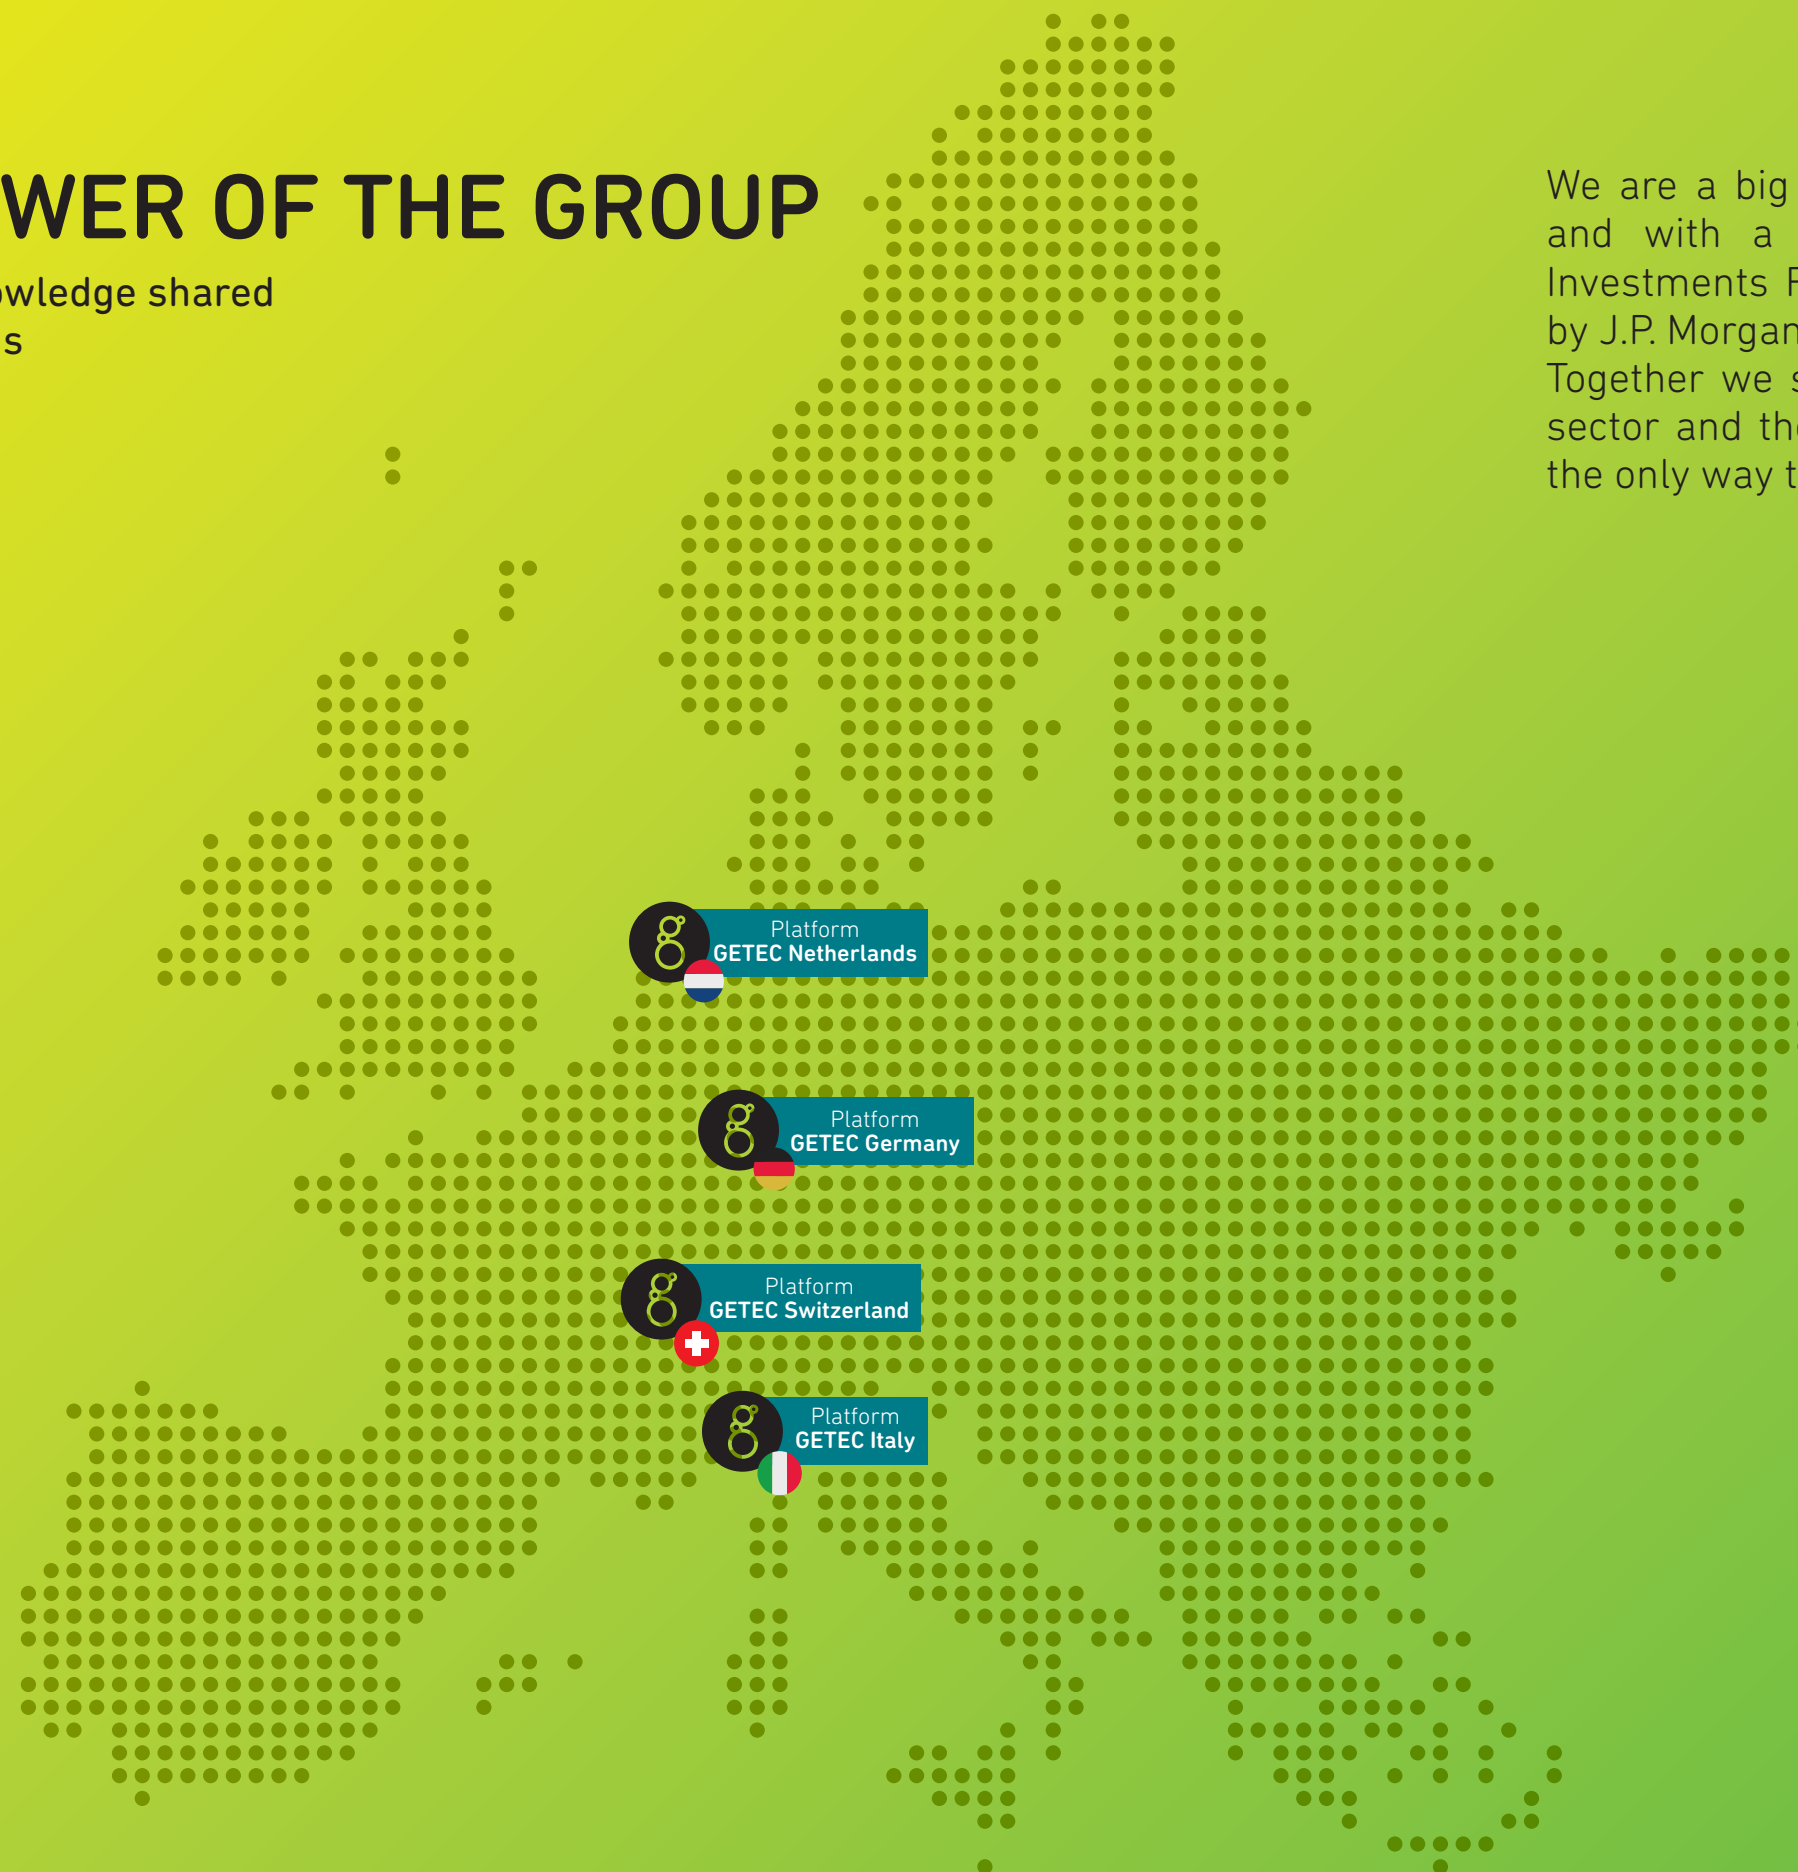

# THE POWER OF THE GROUP

Synergy and knowledge shared  
with all platforms

We are a big group supported by a strong partner and with a long-term vision: the Infrastructure Investments Fund (IIF), an investment fund advised by J.P. Morgan Investment Management Inc. Together we share a vast experience in the energy sector and the belief that sustainable solutions are the only way to preserve the future.

GETEC

## SECTORS IN WHICH WE OPERATE

### Public Administration

We manage real estate assets throughout the country, providing experience, quality and reliability to our clients.

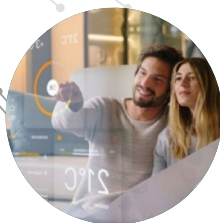

### Industry

We are the partner for the industry able to offer efficiency and sustainability with a global approach to create value and reduce emissions and energy costs.

### Private Healthcare

Our experience with hospitals allows us to offer a management service, for the Private Healthcare Sector, aimed at environmental and energetic sustainability.

### Private Real Estate

Through our ESCo Energy Wave we offer integrated and innovative solutions for the energy management, addressing customers of all real state sectors with specific models, from apartment buildings to major urban, residential and commercial development projects.

## OUR STRENGTHS

A single highly specialized interlocutor for different services.

GETEC

## YOUR ADVANTAGES AS OUR CLIENT

### Cost containment

With GETEC by your side you reduce energy costs for a better operating performance thanks to the requalification and to a proper management of the facilities.

### CO<sub>2</sub> reduction

Improve your environmental sustainability, increase your company value and reduce your environmental footprint.

### Security and reliability

Maximum facility and supply security thanks to remote monitoring.

### Energy partnership

We support your activity with our knowledge. Your success is our motivation.

### Financing and cash flow optimization

Thanks to our liquidity you can protect your capital and use resources for your core business.

### Integrated efficiency

Improve your competitiveness with complete energy efficiency solutions.

## OUR ESG STRATEGY

SUSTAINABILITY IS AN EVOLUTIONARY PROCESS WE ARE TAKING PART OF AND WE WANT TO BE PROTAGONISTS OF IT

Sustainability is an evolutionary process. It starts with us, within our company and we want to be protagonists of it. But this is not enough. Attention to the environment and to people has always been part of our DNA but now, it underpins our strategy, it leads our business and characterizes our actions more than ever. We are proud of it. Helping others to produce and live in a more sustainable way is the heart of GETEC mission and, in order to achieve the maximum impact, we combine different elements: know-how, innovation, technology and processes. We are committed to the sustainable development of the energy industry. We are aware of the urgent need to implement the energy transition and we take

responsibility to realize it in all our projects, focusing on intelligent and sustainable energy solutions – GETEC green solutions – to reduce greenhouse gas emissions in industry, healthcare, residential constructions and all the sectors in which we operate. This is the way we intend to fight climate change, to improve people's lives and to create a future worth living. We aim to support and promote diversity, inclusion and integration. We are committed to act responsibly and transparently, thus fulfilling the trust placed in us by our clients, employees and society in general. For this reason, the decisions we make everyday take account of short-term and long-term effects on the environment and society, we work in order to meet the needs of present and future generations.
